Buyer's Laboratory LLC named HP Inc, the **Most Reliable Printer and MFP Brand** for 2018-2021, BLI's newest award is based on lab-tested reliability data from 2012 to 2018, honouring the vendor whose product line surpasses the test.

HP most secure¹

HP's most advanced embedded security features are available on HP Enterprise and HP Managed devices with HP FutureSmart firmware 4.5 or above.

HP JetAdvantage Workflow Solutions

Improve productivity and drive down costs, helping our customers and their employees work more efficiently.

Services

From standard warranties to a fully-managed fleet, HP services keep your business printing.

Sustainability made real

A leader in sustainable printing, HP develops printing solutions that help customers reduce their environmental impact and contribute to a circular and low-carbon economy.

¹ HP's most advanced embedded security features are available on HP Enterprise and HP Managed devices with HP FutureSmart firmware 4.5 or above. Claim based on HP review of 2021 published features of competitive in-class printers. Only HP offers a combination of security features to automatically detect, stop, and recover from attacks with a self-healing reboot, in alignment with NIST SP 800-193 guidelines for device cyber resiliency. For a list of compatible products, visit hp.com/go/PrintersThatProtect. For more information, visit hp.com/go/PrinterSecurityClaims.

² Measured using ISO/IEC 24734, excludes first set of test documents. For more information, see hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver, and document complexity.

³ Purchase of optional paper trays required to reach maximum input capacity.

⁴ HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.

⁵ Measured using ISO/IEC 24734 in non-default general office print mode. Default professional print mode speed, measured using ISO/IEC 24734, is 20 ppm less than general office print mode.
